

## **Dermatology**

### **Description:**

- Observe outpatient and inpatient dermatology consultations.
- Assist in history taking and dermatological examinations.
- Identify and document common skin conditions and lesions.
- Observe diagnostic procedures such as skin biopsy, dermoscopy, and patch testing.
- Assist in basic dermatological procedures under supervision.
- Observe formulation of treatment plans including topical and systemic therapies.
- Participate in daily rounds and case discussions in dermatology units.

**Modules:**

Name of block	Block 2
Name of elective	Biologics in Dermatology
Location of hospital lab or research facility	Dermatology OPD and Ward
Name of internal preceptor(s)	Dr. Neeta Gokhale, Dr. Praneet Awake
Name of external preceptor (if applicable)	
Learning objectives of the elective	<ul style="list-style-type: none"><li>• To provide clinical care to patients of Psoriasis, Vesiculobullous diseases and Atopic Dermatitis admitted in Dermatology Wards/ examined in OPD under the supervision of the Preceptor.</li><li>• Able to identify the common types of vesiculobullous diseases under supervision</li><li>• Learn Indications for Biologics in these disorders to counsel patients about the chronicity of the disease and need for long-term medicines in these conditions under supervision.</li><li>• To learn the entry of medical records in the computer under supervision.</li></ul>
Number of students who can be accommodated in the elective	Four (4)
Pre-requisites for elective	None

Learning resources for students	Names of the textbooks, monographs and journals for Biologics in Dermatology will be provided and the student will be given access to the departmental library.
List of activities for student participation	<ul style="list-style-type: none"> <li>● Participate in OPD and IPD rounds.</li> <li>● Participate actively in Seminars on Biologics in Dermatology</li> <li>● Present 1 case with each indication during the posting</li> </ul> <p>Discuss Investigation, treatment, protocol of respective biologic</p>
Portfolio entries required	Yes
Log book entries required	Yes
Assessment	<ul style="list-style-type: none"> <li>● Punctuality, presentation of cases, participation in case-based discussions will be assessed by Formative evaluation.</li> <li>● Students will be asked to provide feedback about the Elective.</li> <li>● They will also be asked to write Reflections and These reflections will also be assessed.</li> <li>● Log book entries will be maintained.</li> </ul>
Other comments	<ul style="list-style-type: none"> <li>● It will be a learning exercise for the preceptor and the feedback given by the students will help to improve the module for the future batches.</li> <li>● This module will also be discussed in the departmental meeting and inputs of the other departmental faculty will be included to modify or amend this version.</li> </ul>

Name of block	Block 2
Name of elective	Lasers in Dermatology
Location of hospital lab or research facility	Dermatology OPD and Ward
Name of internal preceptor(s)	Dr. Neeta Gokhale, Dr. Aditi Shende
Name of external preceptor (if applicable)	
Learning objectives of the elective	<ul style="list-style-type: none"> <li>● To learn biophysics of LASERs</li> <li>● To learn indications for different types of LASERs <ul style="list-style-type: none"> <li>● To examine patients in skin OPD and select patients for LASERs under supervision</li> <li>● To observe SR/faculty doing LASERs</li> <li>● To learn about post LASER procedure care and complications</li> </ul> </li> </ul>
Number of students who can be accommodated in the elective	Four (4)
Pre-requisites for elective	None
Learning resources for students	Names of the textbooks, monographs and journals in LASERs in Dermatology will be provided and the student will be given access to the departmental library.
List of activities for	Participate in OPD and IPD rounds.

<p>student participation</p>	<ul style="list-style-type: none"> <li>● Participate actively in Seminars on LASERs in Dermatology</li> <li>● Present 1 case with each indication of different LASERs during the posting</li> </ul> <p>Discuss selection of patient, Investigation, treatment, protocol of respective LASERs</p>
